

## The 0710 Labor Saver® Fixture Support-Lavatory Support with Concealed Arms

The Labor Saver® Lavatory Support, Figure Number 0710 has been designed to speed up the installation

**horizontal and vertical adjustability to fit varying installation conditions**

process by using a one-piece, pre-assembled rigid steel frame construction. This innovative support from Jay R. Smith Mfg. Co. allows for installation in narrow wall and metal stud configurations. The fixture support features both horizontal and vertical adjustability to fit varying installation conditions.

### Unique Bracket Design

The 0710 Labor-Saver® Fixture Support requires only front accessibility for final adjustment. Fixture setting allows for easier adjustment, both vertically and horizontally.

**reduces assembly and installation costs**

### Ox Bow Design Series

Lavatory Support with Concealed Arms (Figure # 0710)

Uncommon cross support design to allow room for waste piping.

## Benefits and Advantages

- **Compact and rigid one piece steel frame.**
- **Pre-assembled** - fewer components to be lost.
- **Reduced inventory** - one support for most lavatory applications.
- **Unique bracket design** - for all types of concealed arm lavatory fixtures.
- **Reduced installation space** - fits narrow wall and metal stud configurations.
- **Labor savings** - dramatically reduces cost associated with assembly, installation and material handling.
- **Excellent versatility for prefab assembly in battery.**
- **Easier to adjust** - needs front adjustment only after the wall is in place.
- **Superior to traditional support** - which requires both front and back access for final adjustment.

# Labor Saver® Fixture Support

## Installation Options

The Labor Saver® Fixture Support is designed to fit varying installation conditions.

The Labor Saver® Fixture Support will accommodate a variety of fixture manufacturers in several configurations:

- Off-the-floor urinals.
- Off-the-floor lavatories (exposed arms, concealed hangers).
- Off-the-floor water coolers.
- Off-the-floor sinks.

The Labor Saver® offers versatility in supporting a single fixture on one wall or may be used to support two fixtures, each mounted on the opposite sides of a wall.

## Symmetric Design Series

Urinal support for Off-the-Floor urinals with supporting and bearing studs (Figure #0617) and electric water cooler support (Figure #0831)

Urinal support for Off-the-Floor urinals with hanger plate for blowout and washout urinals (Figure #0616) and lavatory support with concealed hangers (Figure #0801)

- **Conforms to the applicable ASTM Specifications**
- **Meets or exceeds the applicable requirements of ASME A112.6.1 M**
- **IAPMO Listed**
- **Patent Pending**

Lavatory support with Exposed Arms (Figure #0760)
